

PROJECT 2 DIGITAL BOARD + PEER REVIEW

The Wagners

DESIGN CONCEPT

WHO?

Rob and Maryanne Wagner are a retired couple planning to age in place. Their owner's suite needs to be more accessible and comfortable after Mrs. Wagner's stroke, while still reflecting their 40-year marriage and love of gardening and home.

WHAT?

The design will create a serene modern farmhouse bedroom suite with soft neutral finishes, natural wood tones, garden-inspired accents, and accessible bathroom features that feel elegant rather than clinical.

WHY?

This concept supports the clients' physical needs after Mrs. Wagner's stroke, improves daily function and safety, and gives the couple a peaceful, romantic retreat that feels timeless, welcoming, and connected to nature.

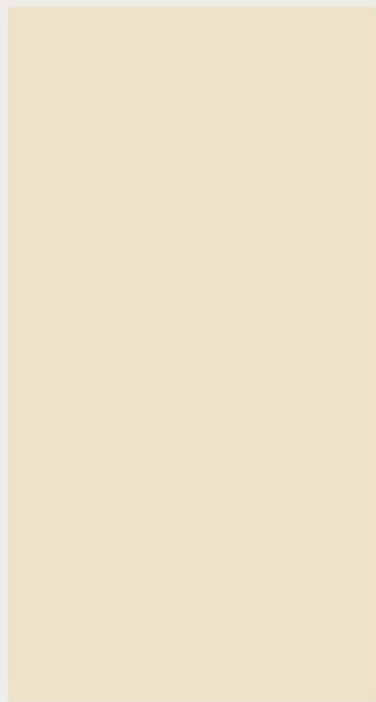

HOW?

The suite will feature open circulation, simple furniture placement, layered lighting, non-slip materials, a walk-in or curbless shower, supportive fixtures, and a calming palette of warm whites, soft sage, muted taupe, weathered oak, and gold accents for both farmhouse character and long-term usability.

BEDROOM MATERIALS/FINISHES:

CEILING: SILENT WHITE - PALE™

WALLS: SILENT WHITE - DEEP™

FLOORS: SAND DOLLAR
WATERPROOF HYBRID
RESILIENT PLANK - CORK PAD
